

Bale Net Wrap

Gardien the Protector Bale Net Wrap

"The perfect wrap to improve production and quality."

Syfilco's Gardien the Protector Bale Net Wrap is an attractive alternative to twine for the wrapping of round hay bales. All major baler manufacturers now offer a variety of baler models designed to use net wrap. There have also been many innovations in bale netting. Syfilco has perfected its traditional knitted netting. Gardien the Protector netting has been proven over time using a balance between stretch and strength to give the user maximum benefit and yield.

Product Sizes
